

## Paper for smelling tests ref. 1228

Smelling tests with perfumes, aromas, essence, etc.

### APPLICATIONS

- Smelling tests with perfumes, scents, essences, etc.

### Description

An absorbent paper made with high-quality linters and cellulose. During the production and handling process, they are carefully protected from any type of contamination, which makes them ideal for use in laboratories where smelling tests are carried out. This paper, thanks to the good evenness of its surface, can be printed for the insertion of any text or commercial logo.

### Technical specifications

Ref.	Weight in grams	Thickness
	gr/m <sup>2</sup>	mm
1228	250	0.58
